Weight:-	22.9 Kgs
Dimensions:-	375mm(L) x 315mm(W) x 538mm(H)
Consumption:-	1.5 Amps
Fuse:-	6.3 Amps

Features and Applications

The MAC 250 Wash is a powerful yet compact and remarkably efficient washlight with extraordinarily fast and quiet movement, a variable frost filter for zoom effect and a CMY colour mixing system with complimenting colour wheel.

Commonly used for smaller size venues these units are extremely capable when it comes to output. Used on many smaller jobs and still not out of place on a bigger stage we often use these fixtures for corporate events, rock shows and community events. Due largely to their compact size and weight, they are a very user friendly unit, able to be rigged in many situations where a more high end fixture is not suitable nor practical.

In 19 channel mode 16 bit control is available across the Pan and Tilt, colour wheel, CMY, dimmer and frost parameters.

CMY Colour mix:-	An independently variable colour mixing system from 0% - 100%
Colour Wheel:-	6 interchangeable colours including UV transmitter and CTC + open. Full indexing is possible as well as the continuous rotation of the colour wheel to create a scrolling effect.
Diffuser:-	A smooth variable frost filter
Dimmer:-	Mechanical dimming 0% - 100%
Shutter:-	Strobing effect up to 14Hz as well as pulse effects, instant open and blackout
Movement:-	540º Pan, 270º Tilt with both tracking and vector movement capability
