Fixture Name:-	Mac 350 Entour
Fixture Type:-	Moving Yoke Profile unit
DMX Channels:-	14 or 17 depending on Mode
DMX In/Out:-	5 pin Locking XLR
Lamp Type:-	7 x Luminus 50W LED's
Peak Output:-	8,000 lumens
Weight:-	16.6Kgs
Dimensions:-	377mm(L) x 220mm(W) x 471mm(H)
Consumption:-	Max. 450w
Fuse:-	10 Amps
Gobo Size:-	27.9mm outside diam. 23mm image diam. (Max)

Features and Applications

The MAC 350 Entour is a cutting edge LED profile fixture with no peers. It surpasses what has previously been possible in terms of brightness, efficiency and compactness in a hard edge LED fixture. Featuring proprietary LED technology, it is the market's first real alternative to traditional HID-based profile fixtures.

Lighter, brighter and more compact, the new alternative to smaller event lighting. Picking up from the MAC 250 Entour, they are a very popular fixture. Due largely to their compact size and weight, they are a very user friendly unit, able to be rigged in many situations where a more high end fixture is not suitable nor practical.

In 17 channel mode 16 bit control is available across the Pan and tilt, colour, rotating gobo's, dimmer and focus parameters.

Colour Wheel:-	8 interchangeable colours + open. Full and split colours are possible as well as music trigger, continuous rotation and random colours.
Gobo Wheel :-	6 interchangeable rotating gobo's + open on a wheel that also has a shake function, indexing and continuous rotation of the wheel for gobo scrolling
Iris:-	Motorized with random and pulse effects
Dimmer:-	Electronic dimming 0% - 100% with a choice of 4 dimmer curves
Shutter:-	Electronic strobing with burst, regular and random pulse effects, instant open and blackout
Focus:-	Achievable from 2m to infinity
Movement:-	540° Pan, 257° Tilt with both tracking and vector movement capability and adjustable effects speed
